

Climate Change Impacts to Health

A Community Forum

for municipal leaders, public health professionals, emergency service providers and community members

Wednesday, March 30th

5:00 - 8:00 pm

**Dartmouth Hitchcock Medical Center, Lebanon, NH
Auditorium E**

Registration is free and a light meal will be served

Purpose

- » To **provide information** about the potential health impacts from climate change
- » To **identify regional priorities** relative to health impacts of greatest concern; to identify the people most at risk and
- » To **develop action steps:**
 - » How can we address our priorities with existing capacity?
 - » Do we need to develop additional capacity?
 - » How can we reduce severe heat impacts on older adults in our community?

Agenda

- 5:00 - Registration
- 5:30 - Opening Remarks
- 5:40 - Climate Science and Health Impacts
- 6:05 - How are NH and VT addressing these challenges?
- 6:35 - Audience Polling and Community Discussion
